

MULTIDISCIPLINARY CARE AT CONCENTRIC

At Concentric Rehabilitation we provide high quality evidence-based care delivered by a team of allied health professionals.

We believe that all therapists involved in your care should work together to ensure you receive an efficient and effective therapy program to help you reach your potential.

WHAT OUR SERVICES LOOK LIKE

- Individual discipline or multi-disciplinary care depending on your needs and goals
- Key therapist allocated to co-ordinate your care and ensure good communication between you and your team
- Therapists who work together to help you achieve your goals including completing therapy sessions together and incorporating therapy ideas across disciplines

Based on your needs and goals you may be able to access the following professionals:

- Occupational Therapy
- Physiotherapy
- Speech Pathology
- Psychology
- Specialist Behaviour Support Practitioners
- Dietician
- Exercise Physiology
- Podiatry
