

Rehabilitation for a better tomorrow

Upper Limb Intensive Rehabilitation Program

Maximise your hand and arm function after
neurological injury

Contact us today (02) 9906 7777
www.archhealth.com.au

Individually tailored program to help you get your arm and hand moving.

- ✓ 2 weeks of intensive therapy with our specialist neurological therapists.
- ✓ Regain arm & hand strength, range of motion, feeling and functionality.
- ✓ Enhance post botox treatment outcomes.
- ✓ Access state of the art upper limb robotic and gaming technology.
- ✓ Get more time in therapy with flexible delivery in-clinic and at home.

The Upper Limb Intensive program is suitable for all abilities and is most suitable for people presenting with symptoms following a stroke, brain injury or spinal cord injury.
