Specialised Exercise Physiology & Physiotherapy

for people with **neurological conditions** and
physical disability

16 locations Australia-wide

Maximise your **potential**

NeuroMoves offers **specialised exercise physiology and physiotherapy** for people living with neurological conditions and physical disability, including but not limited to, stroke, spinal cord injury (SCI), brain injury, multiple sclerosis (MS), cerebral palsy (CP) and others.

We have a range of programs on offer depending on your goals. Our team of experienced exercise physiologists and physiotherapists will take the time to understand your needs and tailor your plan.

As part of the trusted **Royal Rehab Group**, a leader in neurological rehabilitation for over 125 years, we bring clinical expertise and a long-standing reputation for delivering life-changing outcomes. This strong foundation underpins everything we do.

**Ready to see what you could
achieve with the right support?**
